

Wyckoff OU1 Meeting

November 5, 2014

EPA R10, 21st floor, Room “Shoshone”

8:30 – 11:30 AM

Participants: Helen Bottcher, Justine Barton, Rick Moore, Rich Brooks, Chung Yee, Susannah Edwards

Items to discuss:

- Confirm RAOs
- Ensure everyone has the horse clam tissue data from the sampling event earlier this year – quickly review and discuss any implications for the offshore cleanup
- Review risk assessment calculations
- Quick summary of Integral study of the holes in the cap
- Discuss design parameters and schedule for patching the holes in the cap
- Discuss OU1 FFS – alternatives on the table, deadline for comments.
- Discuss development of new / hybrid alternative for OU1 FFS – ideally, reach agreement on elements to be included in a new alternative
- OU2/4 wall replacement – discuss idea of a new wall on the outside / seaward side of the existing steel wall – ideally, reach agreement on whether to pursue this design concept further
